Portfolio Resume: https://krishangulati1.github.io/

CAREER OBJECTIVE:

I seek to build an enduring and rewarding career in IT as an Individual Contributor and as a Subject Matter Expert with a reputed organization where my program development skills could be utilized and improvised with the progress of the company.

EXPERIENCE SUMMARY   24th June 2019 – Present

Working as **Programmer Analyst** at **Cognizant Technology Solutions** , Pune with approximately **1 Years 6 Months** of experience in program development**.
(Cognizant is an American multinational product led digital corporation that provides digital IT services with Head Quarters in United States and has support operations in India)**

- Understanding the functional aspects of the client's requirements and assisting in creating client specific applications, project specific processes and workflows within scheduled timelines.
- Going through Project specific documents and bootcamps to learn about client application suites, technology stacks used in the client environment and client specific processes and tools.
- Contributed to servlet-based application development.
- Contributed to development of client side and server-side codes for web applications.
- Participating in creation of Weekly and Monthly reports to Clients and responding actively in daily standup calls and weekly calls.
- Assisting in maintaining and updating existing applications and modules.
- Helping the design of form validation programs using HTML and JavaScript.
- Participate in project and organization initiatives led by the Delivery leadership.
- Ensure appropriate classification and prioritization of tasks.
- Provide periodic task level updates as required.
- Multi-tasker and troubleshoot any issues that arise with departments to ensure their prompt and accurate resolution. Prefer learning by trial, rather than trying to grasp all-at-once.
- Proficient in Java, Spring and Spring Boot and familiarity with Oracle and MySQL database management.

B.Tech (2019 pass out) in the Stream of **Computer Science Engineering from Lovely Professional University, Punjab** with an aggregate of **7.7 CGPA**.

Degree	Board/University	Year of Passing	Percentage/CGPA
B.Tech	Lovely Professional University	2019	7.75
HSE	Central Board of Secondary Education	2015	64.8%
SSE	Central Board of Secondary Education	2013	7.80

CORE COMPETENCIES:

- Familiarity with Oracle and MySQL database management
- Excellent proficiency in Java, Spring and Spring Boot
- Worked on Frontend frameworks like Angular, Vue.js.
